

BICS Instant IoT Roaming

Access market-leading IoT roaming coverage for all your 2G, 3G, 4G, LTE-M, NB-IoT and 5G needs

A best-in-class connectivity partner that will grow with you

Whether you're an OEM, IoT connectivity reseller, MVNE, full MVNO or MNO, access all the technologies and expertise you need to establish or grow your roaming business.

Benefit from BICS' 500+ roaming agreements and easily access instant global connectivity with highest quality of service at the best possible rates.

With NB-IoT and LTE-M coverage in more than 40 countries by the end of 2021, and an ambitious footprint development roadmap, we offer full global IoT roaming coverage through our network of Tier 1 regional and local sponsors.

With more than 20 years' experience, BICS offers highest quality IoT connectivity tailored for you and your end customers.

Key features of Instant IoT Roaming

Support for any connectivity type including SS7, IPX, Diameter Signaling, SMS hub

Multi-regional and local sponsors for seamless quality, optimized cost and faster troubleshooting

Competitive cost structure with wholesale pricing by region or country

Regional and local breakout of traffic to guarantee low latency

Online reporting for an accurate breakdown of your coverage and services

Best-in-class 24/7 customer support and development based on customer feedback

Hassle-free global IoT

- **Seamless global connectivity** via a single agreement and connection
- **Growing network coverage** and continuous investment in new technologies
- **Excellent track record** with 70+ live customers (including full MVNO's, MVNE's, MNO's and IoT players)
- **Flexible solution** that can co-exist with direct agreements and OC Roaming hub
